The **HunterDouglas**

Legacy

The production of the first lightweight aluminium blind in 1946 has marked the beginning of Hunter Douglas Window Fashions.

Since developing the first lightweight aluminium blind in 1946, Hunter Douglas has led the industry in creating the highest quality, innovative window coverings for homeowners. Our products provide solutions for everyday, practical needs - from privacy to safety to light control - while also satisfying your desires for a stylish furnishing that transforms your home.

From our founding in 1919, Hunter Douglas has been a home for innovators and has since established operations in North America, Europe, Australia, Latin America and Asia.

HunterDouglas

WINDOW FASHIONS

At Hunter Douglas, we believe window fashions must be more than stylish. They must offer various functional options to suit every home's needs. Enjoy the innovative design, advanced features and unrivalled quality that make Hunter Douglas the brand of choice for dressing your windows with style and flair.

Product Features

1. UV PROTECTION

Hunter Douglas fabrics blocks up to 99% of UV to protect you and your indoor furniture.

2. EASY TO CARE & MAINTENANCE

All fabrics are dust, soil and stain-resistant. Minimum effort is needed to keep the blinds looking new and vibrant.

3. COMPLETE PRIVACY

Opaque fabric blocks up to 99% of light, offering excellent closure and high level of privacy.

4. UNOBSTRUCTED VIEW

Professionally designed to meet your privacy and light control needs while giving you access to the view outside.

5. HOME SAFETY

Incorporated with safety design to enhance home safety, especially for children and pets.

6. FINE DETAILS

Compact product design to maximise outside view. Comes with corrosion-resistant and colour-matching components.

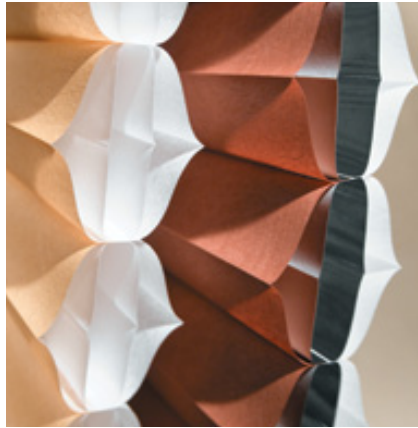

Product Guide

Filtering light and insulating your home all year round

DUETTE®

Honeycomb Shades

The Architella® Collection

In 1985, Hunter Douglas launched the energy-efficient Duette® honeycomb shades—the first product of its kind—in response to the energy crisis of the late 1970s.

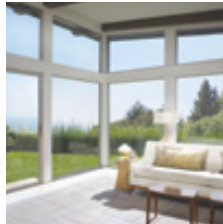

With a wide array of fabrics, pleat sizes, colours and textures, Hunter Douglas Duette® honeycomb shades enhance any decor.

Duette® Shades from Hunter Douglas feature a unique honeycomb construction that makes these shades soft, durable, and highly energy efficient. The shades built-in insulating characteristics help keep the heat out in summer and the warmth in during winter. Highly versatile, Duette® Shades are available in hundreds of colours and a wide variety of fabrics—a perfect solution for windows of most every size, shape, and situation.

SUPERIOR ENERGY EFFICIENCY

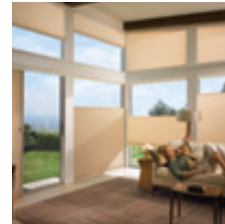

The honeycomb structure offers the industry's highest level of energy efficiency. They help to warm the home and keep the house cool during hot days.

BEFORE

- Home interior is hit by harsh daylight.

AFTER

- Duette® honeycomb shades distill sunlight into a warm glow and controls room temperature to achieve a cool home on hot days and a warm home during rainy days.

- **PATENTED TRUEPLEAT™ CONSTRUCTION**

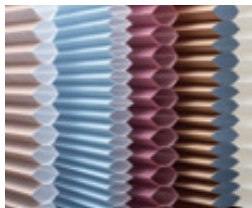

The patented TruePleat™ design assures pleats stay crisp and even.

- **WIDE SELECTION OF FABRICS**

Comes in sheer, semi-opaque and opaque fabrics with distinctive fabric styles.

- **LIFTING SYSTEMS AND DESIGN OPTIONS**

Various lifting systems and design options, which includes Ultraglide™, EasyRise™, Top-down/Bottom-up, Duolite™, Vertiglide™ and Motorisation.

Gentle translucency for an endless variety of moods

SILHOUETTE®

Window Shadings

Light as silk, elegant as a curtain, practical as a Venetian Blind, innovative Silhouette® Window Shadings are a unique, exceedingly beautiful decorative shade that allows you to let in the precise amount of filtered light you desire. Featuring soft rotating fabric vanes suspended between two sheer fabric layers, Silhouette® Window Shadings lets you create an endless variety of moods and atmosphere with softly filtered light.

- The Signature S-Vane™ design gives the ability to transform light into gentle, diffused beauty.
- Vanes can be tilted to desired angles diffusing the light into the room or to enhance privacy by fully tilting up the vanes.
- Available in various vane size and comes in different degrees of opacities.
- When fully raised, shadings completely disappear into the headrail for a clean appearance and an unobstructed view.
- Fabric-covered and colour-coordinated headrail softens the look and complements the shading.
- Silhouette® fabric is anti-moire patented. The weave on the sheer front fabric facing is different than the weave on the rear facing, thus eliminating any wavy motion a person would otherwise see when looking through the shading.
- Available in EasyRise™ and Motorisation for ease of control.

Give your home a sentimental touch

BALLETTE®

Drapery Sheers

Vanes set between translucent sheer bestow the privacy of soft draperies in Ballette® Drapery Sheers. Crisp fabric vanes rotate for privacy while completely controlling the light in a room.

- Soft billowing sheer for an appealing appearance.
- Patented hinged sheers can be easily replaced separately.
- Well-designed slat carrier to hang up the sheers without unsightly chains.
- Optional light filtering vanes and room darkening vanes to ensure light control and privacy.

A clean uncluttered look

VIGNETTE®

Modern Roman Shades

Luxurious fabrics and soft folds give Vignette® Modern Roman Shades a crisp, tailored look, with the added benefit of enhanced child safety. Offered in semi-sheer, translucent and room-darkening fabrics, its diversified styles help you create warm, inviting and beautiful windows.

- Combines the look of fine drapery with the ease and convenience of a shade.
- The matching fabric-covered headrail and bottom rail provides a fully integrated look.
- Available with EasyRise™ operating option.

Clean lines is the key to timeless sophistication

Designer Shades

For a look that's both custom and classic, our Designer Roller Shades offer a clean appearance in a beautiful range of fabrics. An elegant touch is added to the shades by a fabric-mounted headrail and colour-coordinated components.

Designer Roller Shades

Optimascreen®

A new technology in Sunscreen products - Optimascreen® is made up of polyester coated with PVC, offering antibacterial effect against mold and virus. It is free from unpleasant smell and has passed the fire-retardant test which is safe for indoor usage.

Optimascreen®

Defining a classic architectural approach to window design

WOOD Blinds

Hunter Douglas Wood Blinds are distinguished by its high quality. These premium wood blinds add dimension and a fashion element to the décor.

- The traditional styling and rich wood slats of wood blinds complement the lines of any room.
- Available in a variety of colours, fashioned for warm and classy homes.
- Comes with matching valance and bottom rail for a complete finished look.
- Option of decorative tape design harmonises with the wood blinds.

Create light control and privacy with this design classic

VENETIAN

Blinds

The charm of our Venetian Blinds lies in their versatility. First introduced to the world by Hunter Douglas in the 1950s, our Venetian Blinds offers you precise control of light intensity and direction with the quick twist of a wand.

- Sleek, slim aluminium slats offers maximum light control and a clean uncluttered look.
- Enjoy special finishes, textures and a range of attractive hues.
- Specially designed to hide cord holes in order to block unwanted light.
- All blinds are heat-treated for extra “bounce-back” construction.

Operating Systems & Design Options

Operating Systems

MOTORISATION

- Electric-powered system raises or lowers shade at the touch of a button.
- Perfect solution for hard-to-reach windows.
- A two-button press on the hand-held remote wall switch operates individual or groups of window coverings.
- Electric-powered system for ease of control.

STANDARD CORDLOCK

- Proven gravity fed Standard Cordlock System ensures ease of operation and long lasting durability. Raise your window coverings to any level with our Standard Cordlock System.

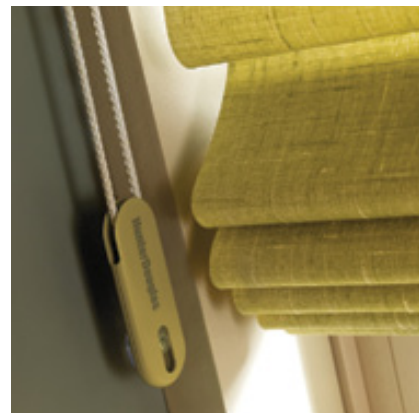

ULTRAGLIDE™

- Revolutionary system for smooth, effortless operation including gentle self-lowering.
- Constant cord length keeps cords out of reach of children and pets.

EASYRISE™

- Continuous cord loop to easily raise or lower large shades.
- Cord tensioner mounts securely to the window frame for enhanced child and pet safety.

VERTIGLIDE™

Perfect for vertical applications. Available in left, right, split and centre stack. Also in Duolite™ option – which offers two fabrics on one shade.

Design Options

TOP-DOWN/BOTTOM-UP

- Provides you the ability to operate window coverings from the top down or bottom up to meet all your privacy needs while still giving you access to natural light.

DUOLITE™

- Offers maximum light control using two separate fabric panels to achieve day / night level of convenience. Perfect for bedrooms or other areas where both privacy and natural light are desired.

Remarks:

– a

- 1= Reduce glare, no privacy
- 2= Softens light; moderate privacy
- 3= Softens light; substantial privacy
- 4= Diffuses light; complete privacy
- 5= Blocks light; complete privacy

– b

The window covering's ability(when closed) to block damaging ultraviolet(UV) light.

– c

The window covering's ability to resist heat loss or shade against heat gain, with a single layer of uncovered window glass as the baseline comparison.

– d

Reduction of noise for an indoor environment.

– *All sizes are for reference only, please consult our dealers for exact size limitations.

– ©Silhouette® Window Shadings is not available in 100% blackout. For total blackout, recommend to combine Roller Shades with Silhouette.

Worm tracks appear as slight crease, typically seen on vane fabric and are more noticeable in light-dimming fabrics.

– *Dimpling may appear on opaque range due to humidity of Asian climate.
