THE BOLD LOOK
OF **KOHLER**®

WELCOME TO KOHLER® – WHERE BOLD THINKING
AND RIGOROUS CRAFTSMANSHIP COMBINE
TO BRING INNOVATIVE, BEAUTIFUL DESIGN TO LIFE.

WE'RE CELEBRATING 140 YEARS OF SETTING
THE STANDARD OF EXCELLENCE AND PUSHING
THE LIMITS OF DESIGN. WHETHER WE'RE CREATING
KITCHEN AND BATH PRODUCTS, TILE AND
FURNITURE COLLECTIONS, ENGINES AND
GENERATORS, OR FOUR-STAR RESORTS AND
CHAMPIONSHIP GOLF COURSES, OUR WORK
IS BORN FROM A DESIRE TO DESIGN EXPERIENCES
THAT MAKE THE WORLD MORE GRACIOUS.

AFTER FOUR GENERATIONS, WE REMAIN A
FAMILY-OWNED COMPANY. BOLDER THAN EVER.

**LIFE
WITHOUT
LABOR
IS GUILT.
LABOR
WITHOUT
ART IS
BRUTALITY.**

Our history is one of invention. A pioneering spirit of ingenuity has defined Kohler Co. from its earliest days when John Michael Kohler launched a global plumbing company with a horse trough turned bathtub. A visionary, Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality.

WITH A RICH HISTORY SINCE 1873

FOUNDATION

1873

Founded by John Micheal Kohler, Kohler Co., was set up in Sheboygan, Wisconsin.

1873

An enameled cast-iron horse trough/hog scalding is sold as a bathtub.

MANUFACTURING DEVELOPMENT

1905

Walter J. Kohler is elected company President.

1911

Kohler Co. introduces the industry's first one-piece, built-in bath with an integral apron.

1920

Kohler Co. enters the Power Systems business.

1926

Kohler Co. opens a plant in the Village of Kohler to manufacture faucets and brass accessories.

1927

Kohler Co. begins production at its new pottery building, becoming a full-line plumbing products manufacturer / a technological breakthrough with products in pastel colors.

CONTINUOUS EXPANSIONS

1937

Herbert V. Kohler, Sr., is elected President of Kohler Co.

1948

Kohler Co. begins producing and marketing small engines.

1965

Introduction of bathroom fixtures in "accent" colors, more vibrant than the pastels of the 1920s.

1967

New concept of boldly colored products under the tag line THE BOLD LOOK OF KOHLER®.

GLOBAL ACQUISITIONS AND EMEA IMPLEMENTATION

1972

Herbert V. Kohler, Jr., is elected Chairman of the Board and CEO.

1984

Sterling Faucet Co.: first acquisition of Kohler Co.

1986

1st step in Europe with acquisition of Jacob Delafon, a leading French plumbing products company.

1988

Kohler Co. opens its first golf course.

1995

Known as Foshan Kohler Ltd., a joint venture agreement with China's leading ceramic ware manufacturer, represents an important first step in strengthening the company's position in China.

1999

Kohler Co. expands European offices and distribution to include Oer-Erkenschwick, Germany.

2001

Mira, the leading shower manufacturer in the United Kingdom, becomes a Kohler company.

2002

Kohler Co. acquires KARAT, which makes vitreous china products in Thailand.

2004

Kohler Co. celebrates the opening of its Dubai office.

2006

KOHLER® Kitchen & Bath launched in India.

2007

KOHLER Engines launched in India.

2008

The European warehouse opens in Passel, France.

KOHLER Power Systems launched in India.

2009

David Kohler is named President and Chief Operating Officer.

2010

The second KOHLER plant in Jhagadia, Gujarat, India, is completed and begins manufacturing faucets.

2014

Kohler Co. celebrates the grand opening of its first office in Johannesburg, South Africa.

KOHLER® Toilets

KOHLER toilets are offered with a variety of performance-driven flushing systems that are engineered to meet your particular demands. Whether your needs are based on extraordinary flushing power or complete, quiet performance with added comfort, KOHLER toilets provide the perfect solution. For a completely coordinated design presentation, select models integrate with KOHLER suites and ensembles to create a unified look throughout your entire bath or powder room.

Class Five™

Engineered for
Extraordinary
Performance.

KOHLER® toilets with Class Five™ technology are engineered for extraordinary bulk flushing performance in commercial and residential settings. With performance that reflects the raw power of white water rapids, these toilets feature one of the industry's leading 82.5mm flush valves. Its efficient direct-fed jet maximizes water flow and allows for an eco-friendly 5.3 liter flush setting option.

Additionally, our exclusive DryLock system significantly reduces installation time and the potential for leakage on two-piece models. An innovative metal bracket at the base of the tank means no bolt holes are drilled through the tank, and only one tool is required to secure the tank to the bowl. For toilets that get pushed to the extreme, a Class Five™ toilet is the perfect choice.

Ingenium®

Clearly the Most Complete Flushing System.

The Ingenium® flushing system by KOHLER® is precision engineering to deliver 13.2 liter flushing performance in a 6 liter package, a truly significant statement in the plumbing industry. Complete performance requires attention to each and every detail. This system features a gravity-fed siphon jet that provides exceptional resistance against plugging. A quiet, controlled flush minimizes noise and splash, while the sustained swirling motion of water helps keep the bowl clean. Furthermore, this reliable flushing performance maintains its consistency regardless of the innovative designs and extensive KOHLER colors that you wrap around the flushing system. You deserve more from your toilet. You deserve the Ingenium® flushing system by KOHLER.

Power Lite

The Industry's
Powerful
Residential Flush.

KOHLER® Power Lite toilets feature a 0.2hp pump that helps deliver the industry's most powerful residential flush. Additionally, a Twin Touch actuator allows the user to select a 3.8 liter or 5.3 liter flush, saving thousands of liters of water per year.

Dual Flush Toilet | KOHLER toilets with Dual Flush technology combine exceptional water conservation, outstanding flushing performance and transitional design characters. A user-friendly, two-button actuator allows you to choose either a 6 liter or 3 liter flush option.

Significant Water Savings

3 liter water consumption can save an average family of four up to an amazing 94635.3 liters of water each year*.

Easy-to-Clean Design

KOHLER toilets with Dual Flush technology, feature design characteristics, such as a skirted bowl, that create a streamlined aesthetic and easy-to-clean surface.

Hygienic Bowl

The integral sanitary guard prevents liquids from collecting under the tank.

- ① Dual Flush technology is precision-engineered to maximize 6 and 3 liter flush options that offer exceptional performance and water conservation.

*based on usage of 94635.3 liters per year using a 13 LPF toilet.

Integrated Toilets

KOHLER's integrated toilets offer unmatched design and technology to bring you the finest in personal comfort and cleansing. These fully automated toilets come with motion sensors, automatic flush, advanced bidet functions with personalized settings that let you fine-tune every option to your exact preferences, from water temperature to heated seats.

KOHLER® Lavatories

Your bathroom lavatories should reflect your unique preferences in decor. With a lifetime of reliable performance, KOHLER lavatories are available in a compelling range of styles, from traditional to transitional to contemporary, as well as a wide array of durable materials. Choose from vanity top, Vessel™, pedestal, half-pedestal, self-rimming, undercounter and wall-mount installation options to suit your space configuration and design interests.

Terrace™ wall-mount vanity top in white K-XB112-K-00

When selecting a lavatory, consider your options:

Material:

All KOHLER® lavatories are constructed of premium quality materials.

Vitreous china is crafted from a clay mixture that is fired at an intense heat to vitrify the clay and fuse the glaze. The result is durable, non-porous china with a hard, glossy finish.

Fireclay, much like Vitreous china, is crafted from a clay mixture and fired at intense heat for a hard glossy finish.

KOHLER Cast Iron stands firm against years of use. KOHLER Cast Iron is "fire polished" to obtain its deep, glossy color. Its extra thickness provides outstanding protection against chipping and scratching.

Faucet Holes:

Make sure your lavatory is compatible with your chosen faucet.

- Single drilling to accommodate single-hole faucet. Easy to clean lavatory deck.
- 102mm centers: Three tightly-spaced drillings accommodate a dual-handle centreset faucet with 102mm distance between the hot and cold handles or single-control faucet with escutcheon.
- 203mm centers: Three evenly-spaced drillings accommodate widespread faucet with 203mm distance between the hot and cold handles. No faucet is mounted directly on the countertop or on the wall.

Installation:

Consider space and style.

- Vanity top combining the basin and countertop into the design, offer a clean, fluid profile and unified aesthetic.
- Vessel reminiscent of china washbasins, these lavatories can be installed above the countertop or in a self-rimming application.
- Pedestal/half-pedestal: The lavatory is positioned at a comfortable standing height and rests on a pedestal base.
- Self-rimming: The lavatory with rolled edges is placed over countertop openings. Easy to install.
- Undercounter: The lavatory is mounted underneath countertop. Counter cleaning made easy.
- Wall-mount: The lavatory is hung from the wall at a desired, functional height. A space-saving design.

Vanity Top Lavatories

Seamlessly and stylishly combining washbasins and countertops, KOHLER® vanity top lavatories offer a clean, fluid profile, lasting performance and design solutions of singular beauty. A wide selection of configuration choices, size options, including space-saving designs, accommodates individual lifestyle needs and preferences.

KOHLER® Whirlpools and Baths

KOHLER® whirlpools and baths are a seamless blend of art and technology. Select from a multitude of installation and comfort options to find the choice that is perfect for your bath space. Durable materials such as KOHLER Cast Iron and high-gloss acrylic, form the foundation for ergonomic basin shapes in an array of styles. Choose from hydro-massage features to chromatherapy enhancements, and transform your bath into a luxurious, customized retreat. Relax, rejuvenate and renew with KOHLER whirlpools and baths.

When selecting a bath or whirlpool, consider your options:

KOHLER® baths and whirlpools are constructed of premium quality materials. KOHLER Cast Iron is the premium material for baths and whirlpools. The strength of the time-honored material allows KOHLER to create unique, beautiful designs in rich, high-gloss colors. Every KOHLER Cast Iron whirlpool or bath has a Safeguard™ chip-resistant surface to ensure safety.

Acrylic baths and whirlpools offer outstanding performance. Surface hardness provides strong resistance to wear and tear, withstands hot water and retains high surface gloss.

KOHLER whirlpools offer you true relaxation.

Flexjet™ whirlpool Jets: Factory-installed plastic Flexjets™ are standard on all KOHLER whirlpools. Each Flexjet™ offers an air-to-water mixture and velocity that can be independently adjusted by rotating the outer ring of the trim. Made from durable materials, the Flexjet™ is simply the most user-friendly jet available.

Effervescence special ports generate champagne-like bubbles that cling to and caress the skin for a soothing, relaxing experience.

Noise-dampening harness: Made of high-strength PVC, KOHLER recirculating harnesses are fully self-draining to eliminate water residue in the system. Designed with no sharp curves or bends, they reduce noise from water turbulence and increase pump efficiency.

Motor ¾-1 hp, one-speed pump/motor provides a strong, steady level of relaxing hydro-massage.

Noise reduction: An exclusive noise-dampening harness prevents vibration from travelling through the system. A concealed air intake eliminates audible aspiration sounds.

Consider the installation options and dimensions.

Installation: KOHLER offers several bath installation options: free-standing, drop-in, alcove and undermount.

Dimensions: Choose appropriate baths to match bathroom configuration needs. In case of replacement, dimensions of the new bath should fit into the location of the old one.

Hydrotherapy - Whirlpool and Bubble Massage

KOHLER® Hydrotherapy baths are a seamless blend of art and technology. Select from a multitude of installation and comfort options to find the choice that is perfect for your bath space.

KOHLER® Faucets

The design and detailing of your bathroom is something that can bring you pleasure everyday; it is not a place for compromise. KOHLER offers an inspiring breadth and depth of faucetry for lavatories, bath and shower applications. Ceramic disc valving and flexible stainless steel supplies, along with an array of styles and finish options, allow homeowners to complete their bathrooms with confidence.

Inspired by art forms spanning centuries and cultures, drawn to elements of nature and motivated by ever-evolving technology, KOHLER creates faucets that often exceed the imagination. These influences serve as inspiration for bringing performance, design, innovation and art to life.

THE KOHLER® FAUCETS AND SHOWERING ADVANTAGE

KOHLER faucets are designed, engineered and manufactured to the highest standards of quality and deliver a lifetime of uncompromised performance.

Durable Ceramic Valves

Tested to 10,000 on/off cycle equalling 50 years of use for faucets, which is twice the industry standard.

Lasting Finish

Resists corrosion and wear two times longer than the industry standard*.

Eco Cartridge

Saves water through two-stage vertical resistance to handle movement and ensures that the user remains conscious about moving to higher flow, thereby conserving water.

Easy Clean Sprayface

The faucet surface can be wiped clean with only a wet cloth to get a sparkling finish.

Katalyst™ Technology

Injects two litres of air into the water flow per minute, making every drop bigger and more luxurious.

Racetrack Waterway

Ensures equal distribution of water through the showerhead and delivers a revitalising spray with full coverage.

Multi-function Showerhead

Choose from a range of revitalising and relaxing sprays with a wide selection of spray solutions, including big, drenching drops, a soft, silky spray, a massaging pulse of water, and a soft luxury spa spray.

PVD Technology

Available with Vibrant Collection, Physical Vapor Deposition technology offers a range of unique finishes with a 12-year warranty.

Thermostatic Valves

Only a 0.55 degree celsius variation through precise temperature control protects against scalding and freezing.

Versatile Faucet Height

Combine standard and tall height faucets with the perfect washbasin, vessel, countertop, etc. to suit your needs.

*Tested against Acetic Acid Salt Spray, eight times more powerful than industry standard Neutral Salt Spray.

BATHROOM FAUCETS

Your faucet has the power to tie design elements together or set the tone for your entire room. It's an object you use every day, and one that should be both highly functional and beautiful. From sleek minimalist design to intricate traditional detailing, KOHLER® faucets let you define your style. And behind thoughtful design, you'll find cutting edge engineering.

Proven Performance

Performance and reliability are demanded of faucets. KOHLER ensures that we meet our customers' expectations by testing beyond industry standards and ensuring that the valves are going to last the lifetime of the faucet. The code requires valves to function at 2 times the industry standard. Cycle tests equate to approximately 50 years for lavatory faucets and 22 years for kitchen faucets.

- Ceramic disc cartridges are used in single and two-handle faucets.
- The discs are fired nearly diamond-hard making them resistant to hard water and debris. They move against each other grinding any debris so it can flow out of the faucet.
- Movement of the discs has a polishing effect and over time, it creates smooth and consistent handle operation.
- KOHLER's Performance Standard mandates no handle wobble or looseness through cycle testing thus ensuring a solid handle feel and no handle adjustments needed for the life of the faucet.

Award-Winning Design

With styles that range from traditional to contemporary, KOHLER faucets reflect our commitment to innovative and original design. From the very first design sketch to the moment each faucet and accessory is inscribed with the KOHLER name, we obsess over every detail inside and out. Each piece is thoughtfully designed to be exceptional on its own, and each collection is perfectly proportioned.

Finish That Lasts

Ranging from warm brushed tones to brilliantly polished hues, our finishes help soften or define an aesthetic. As tough as they are beautiful, our finishes resist corrosion twice as well as the industry standard.

- KOHLER tests against Salt Spray and Salt Fog Atmosphere standards
- KOHLER finishes must exceed 48 hours - 2 times longer than code requirements
- Submerged or water exposed parts are tested to a longer time standard of 96 hours (includes lavatory and bath drains, shower components, tub trims, etc.)
- KOHLER finishes are tested against the top 29 chemicals found in popular cleaners
- Every finished faucet is hand-checked on the factory floor and must exceed the industry's most rigorous standards

Rainhead

KOHLER® rainheads feature Katalyst™ spray technology, a revolutionary air-induction system with enhanced spray-nozzle configurations. They offer complete coverage with full, heavy water drops for a powerful, thoroughly drenching shower experience.

KOHLER offers rainheads in a variety of sizes and shapes to suit the aesthetics of your bathroom.

DTV®

DTV® is truly the ultimate in hydrotherapy experience and personalization – from the angle of delivery to coverage and temperature. A true spa-like environment, developed with the assistance of body and wellness experts at KOHLER Waters Spa, DTV® features sleek design and intuitive controls, including menu-based navigation and easy-to-use presets.

- Six user presets for one-touch access to saved experiences
- Hydro massage and temperature treatment programs
- Custom and pre-configured installation options

DTV Prompt™

With DTV Prompt™, KOHLER has made digital showering experience simpler. Its intuitive interface and sleek design is incredibly easy to use. The digital thermostatic valve technology guarantees accurate and safe temperature control. Smart features, such as warm-up mode, timer and ability to pause the water flow give you complete control over your shower or bathing experience.

High Performance Valve

40mm Single Control Recessed Bath and Shower Valve

This valve delivers a satisfactory shower with just 1 bar dynamic pressure. It features a lockable diverter, which ensures that water is delivered through the showerhead even at low pressure. Trims compatible with this valve are available in all design ranges, making it easy for you to maintain a coordinated look across your bathroom.

Thermostatic Valve

It adjusts itself to maintain the temperature to a precise $\pm 1^{\circ}\text{F}$ (0.55°C). This valve features high temperature limit stop for presetting maximum water temperature and additional scalding protection.

Transfer Valve

It allows you to put the water exactly where you want it. The three-way design allows control of up to three separate components to six different outputs. This helps in achieving a cleaner look as there are fewer knobs or levers on the wall.

Volume Control Valve

This valve features 12.7mm or 19.05mm quarter-turn washerless ceramic disc valve, assuring positive handle stop positioning and precise volume control.

KOHLER® trims for thermostatic, volume control and transfer valves feature the innovative K-joint installation method. The patented K-joint is an extension that attaches to the valve stem and compensates for behind-the-wall rough-in variability, such as out-of-square and deep rough-in installations, without compromising the appearance of the trim.

Vas™

A rhythmic pattern of honeybees in flight, the Vas™ faucet in Cerana™ design brings a touch of whimsical sophistication to the Vas™ lavatory faucet. Each faucet is individually crafted in rich browns and golds, creating a jewel-like tapestry. The unique design provides graceful water flow for a peaceful bath environment. Washerless ceramic valving ensures reliable performance.

Vas™ single-control lavatory faucet with lever handle and Cerana™ design in biscuit color K-11010-VC-96

Bol™

The classic Bol™ single-control faucet lends artistic beauty to your bath or powder room with a beautiful design inspired by antique apothecary mortar and pestle. Flexible stainless steel supplies and pre-assembled handles simplify the single-hole installation.

Marrakesh™ design on Bol™ ceramic faucet, K-11000-BU-96
*Available in white K-11000-0

Stance

A definitive expression of contemporary design, the Stance faucet collection asserts itself with refined angles and strong, architectural lines. The collection includes lavatory faucets, shower components and bath fillers that use innovative valve and trim options to combine clean form with ergonomic function. Also, Stance faucets are a first to introduce an easy-to-use, single-control bath filler, and shower components that promise striking designs suitable for modern living spaces.

Toobi™

A fusion of pop culture and Asian-inspired sensibilities, the Toobi™ faucet collection re-imagines water delivery for the modern bathroom. The design draws inspiration from the playful exuberance of pop and the simplicity of ancient Japanese gardens. Throughout the collection, curvaceous forms contrast with crisp, polished edges. Each component – lavatory faucet, showering faucet or one of the accessories – is an original. Toobi™ allows you to personalize your bathroom with two spout detail options in every box – green or white. The Toobi™ faucet collection. Give your home some pop.

WaterTile™

WaterTile™ bodysprays and showerheads have created a whole new standard for performance. The 22-nozzle models deliver a high-volume, incredibly stimulating spray, while the 54-nozzle models create soothing hydrotherapy. The fully adjustable sprayface pivots to accommodate your needs. The WaterTile™ rain overhead showering panel comprising of four 54-nozzle, fully adjustable units, creates a luxurious deluge that transforms the shower into a home spa.

Shower Panels

Airfoil™

The design inspiration of Airfoil™ is "chan" - a Chinese philosophy expressing a very peaceful, meditative feeling coming from a communion with nature. Design connoisseurs will love the smooth as well as the contemporary pin point motif where the water rains down as smooth as silk like summer rain in the mountains.

Shower Columns

The Odeon™ shower column features a 139mm showerhead and a 4-way handshower. Incredibly versatile, the handshower can be used for both showering and bathing applications. The rain showerhead pairs nicely with numerous KOHLER® bath and shower faucets. The 203mm oversized showerhead delivers a virtual deluge of water that pampers as it cleanses. The rain shower column comes with either a curved or angled shower arm.

KOHLER® Shower Enclosures

Kohler Co has a 140 year old legacy of introducing outstanding bathroom products with leading edge design and technology. As a part of its strong commitment to Indian market, KOHLER introduces customized shower enclosures – the vital element for a great showering experience.

KOHLER® Shower Enclosures

A global player in shower enclosures, KOHLER has strong presence in shower enclosures across US, Europe and Asia. Our products are characterized by great functionality and high quality components.

KOHLER customized shower enclosures help you upgrade to a great bathroom experience.

- Clean and dry bathrooms - Long life for fittings
- Prevents germ build up - Promotes healthy living
- Slippage free floor - Safe bathroom experience
- Enhanced look - Pride of ownership

Customized Shower Enclosures – The KOHLER Edge

Wide choice of designs and configurations

Whether you prefer traditional metallic designs or contemporary, minimalistic ones, we have just the right look for you. You can also choose from a variety of shapes and opening types to suit your bathroom.

Premium Quality

Singulier™ Hinge – Modern sleek design, passes strict performance tests

High quality hinges that pass 40,000 cycles of testing. All KOHLER hinges have adjustability feature to accommodate imperfections in bathroom walls.

Levity™ rollers – Ideal combination of performance and aesthetics

Long lasting rollers with sturdy design. Combination of Stainless steel bearings and high quality engineered resin wheels that provide stability and smooth, noiseless sliding. Tested rigorously for 40,000 cycles, equivalent to over 10 years of life.

Highest quality toughened glass from KOHLER®
follows global quality standards for toughened glass.
Strict process checks ensure no compromise on Safety.

KOHLER CleanCoat™ - Easy to clean glass

Specially coated glass makes the surface water repellent and be easy to clean especially against lime scaling

Ordinary Glass - Water spreads on glass
leaving lime scale deposits

KOHLER CleanCoat™ - Water forms individual
droplets on glass that roll off easily and do not spread

Customized ledge solution by KOHLER

KOHLER's customized ledge solution prevents water from seeping along the floor thus ensuring that the rest of the bathroom stays dry. Installed by KOHLER technicians, our ledge is a strongly recommended accessory with all KOHLER shower enclosures.

Customized Installation Service

Get a KOHLER customized shower enclosure in the comfort of your home

- Free site inspection by KOHLER technician
- Recommendation on appropriate shower enclosure design for your bathroom
- Custom sized shower enclosure manufactured and delivered to your home
- Complete installation and handover by KOHLER technicians
- Complimentary service visit after one month for any adjustments
- Ongoing support of KOHLER after sales service

Customer Care Number : 1800-103-2244

Memoirs™

This stunning design features the minimum use of metal. Bold curved hinges with a chrome finish secure the glass doors, allowing for large glass spans, while there are also design-matched handles, hinges, wall clips and floor clips. Transparent sealing strips on three sides of the door also ensure perfect sealing.

FEATURES

Hinges - Innovatively designed hinges firmly secure the glass. Seamless sealing strip forms a water tight seal.

Wall clips - Design matched with handles and hinges.

Handles - High quality handles combine solid brass construction and distinguished design. Hinges, handles and wall clips are design matched.

Wall clips - Wall clips have out of plumb adjustability to ensure perfect fitment.

KOHLER® Commercial Products

KOHLER commercial products deliver style and performance that endure. Whether you're offering plumbing products for institutional, or for hospitality applications, KOHLER is your source for hard-working fixtures and faucets of exceptional quality and singular beauty. Our full commercial line includes ADA-compliant toilets, lavatories, urinals and Touchless™ bathroom faucets in a wide range of coordinated design and installation options.

When selecting commercial fixtures, consider your options:

All KOHLER® lavatories are constructed of premium quality materials. Vitreous china is crafted from a clay mixture that is fired at an intense heat to vitrify the clay and fuse the glaze. The result is durable, non-porous china with a hard, glossy finish.

Fireclay, much like vitreous china, is crafted from a clay mixture and fired at intense heat for a hard, glossy finish.

KOHLER Cast Iron stands firm against years of use. KOHLER Cast Iron is "fire polished" to obtain its deep, glossy color. Its extra thickness provides outstanding protection against chipping and scratching.

Touchless™ with Tripoint™ technology senses the true distance of an object and is not affected by inconsistencies in color, lighting, reflections or distant movement, providing highly accurate and dependable operation. Touchless™ technology delivers enhanced hygiene as well as energy and water conservation for prolonged and consistent use in commercial environments.

In-wall tanks are designed to accommodate any of our wall-hung toilets, optimizing use of space and ease of cleaning. Engineered to withstand steady operation in commercial applications, KOHLER in-wall tanks and attractive tank covers with dual actuation offer a modern solution for water conservation and bathroom design.

Urinals

KOHLER® urinals are equipped with excellent water-saving function and cleaning efficiency. Different designs are available for matching with other KOHLER sanitary products.

KOHLER® India Sanitaryware and Bathing Products Limited Warranty

KOHLER India's Faucets*, used in normal residential and non-residential commercial settings, are warranted to be free of defects in the material and workmanship for the period of time set forth in the warranty coverage chart as detailed below, commencing from date of sale of KOHLER India's Faucet* Products to the original purchaser ("warranty period").

WARRANTY CHART				
Products	Residential Use		Non Residential Commercial Use	
	CP Finish	Vibrant PVD	CP Finish	Vibrant PVD
Kohler Faucets	10 Years	12 Years	5 Years	5 Years
Sensor Faucets and Other Commercial products	10 Years	12 Years	5 Years	5 Years
Sensors, Electronic Circuits and Electrical Assembly	1 Year	1 Year	6 Months	6 Months
Motor/Pump/Steam Generators	1 Year	1 Year	6 Months	6 Months
Battery for Sensor Faucets	NIL	NIL	NIL	NIL

During the warranty period if (in the opinion of Kohler India) the defect is due to defects in the material or workmanship, Kohler India or its Authorized Service Franchisee/Representative will, at its sole option, repair or replace free of cost, any defective component or part of the Faucet, subject to the terms and conditions described below:

1. Kohler India or its Authorized Service Franchisee solely can service/repair the Product.
2. Kohler India and its Authorized Service Franchisee will make unit repairs or replacements under this warranty within a reasonable period of time, as determined by Kohler India or its Authorized Service Franchisee performing the repair or replacement.
3. This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims or requests.
4. The service/repair of the warranty shall be provided only within the municipal limits of the town or city where the Branch Office of Kohler India or its Authorized Service Franchisee is located.
5. This warranty does not include payment of or responsibility for any excise duty, central taxes, state taxes and octroi or other local taxes assessed to the parts supplied or repaired during the warranty period.
6. If the Product is installed beyond the municipal limits of Kohler India's Branch Office/Authorized Service Franchisee locations, any and all costs and expenses incurred for repair/service of the Products in respect of a) to and fro travel of service personnel and b) transportation of the Product and/or spare parts and/or components from the location of Kohler India's Branch Office or Authorized Service Franchisee to customer's location and back shall be borne wholly and solely by the customer at the prevailing rates, and Kohler India shall not be liable for any damage caused to the Product in transit or delivery for repair.
7. Warranty period will start from date of invoice and shall automatically terminate upon the expiry of the warranty period even if the Product has not been installed after purchase or has not been in the use for any part or whole of the warranty period for any reason whatsoever.
8. In the event of any repairs/replacement of any parts of the Product, this warranty shall thereafter continue and remain in force only for the unexpired period of the warranty. Any time consumed for the repair/replacement of parts including transit of the Product or its parts or any period during which the Product has not been used whether under warranty or otherwise shall not be excluded from the warranty period and no extension of the warranty period will be granted.

9. This warranty remains applicable only if the Product has at all times been used strictly in accordance with the terms of this warranty and has not been improperly or negligently handled. This warranty is not valid or effective if the Products are not installed according to the instruction manual. Improper handling of the Products automatically terminates and nullifies this warranty. This warranty does not cover problems arising from insufficient water pressure beyond the recommended limits, excessive water impurities/hardness beyond the norms of drinking water or improper care and cleaning. Guidelines for proper care and cleaning** are mentioned below. Kohler is not responsible for labor charges, installation or other incidental or consequential costs. Kohler is not responsible or liable for any special or consequential damages due to the defective Product, or due to defects of any component or part thereof. In no event shall the liability of Kohler India exceed the purchase price of the Product. Improper care and cleaning will void the warranty.
10. In the event of non-availability of components or parts due to any reason whatsoever, neither Kohler India nor its Authorized Service Franchisee nor the Dealer will be responsible or liable for any delay that may be caused to service/repair of the Product. In the event that the same model or color is not available for replacement, Kohler India or its Authorized Service Franchisee will replace the defective Product with an equivalent model or color.
11. Kohler India may, at its discretion, retain any part or component replaced during the warranty period.
12. For Faucets sold in India only, this warranty document is applicable. Any reference to any other warranty document will not be considered.

This is Kohler India's exclusive written warranty.

Care and cleaning guidelines for Chrome and Vibrant® PVD colors/finishes

- Always test your cleaning solution on an inconspicuous area on the Product before applying to entire surface.
- Use a soft dampened sponge or cloth to clean, never use abrasive material like a bristle brush or scouring pad.
- Do not use cleaners containing ammonia, bleach, or acid. Most toilet cleaning products have high acidic content which can damage the chrome finish, hence they should not be used to clean chrome finish.
- Use a mild detergent (such as dishwashing soap). Do not use abrasive cleaners.
- Rinse and be sure to wipe the entire surface dry.

The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action on dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your Faucet looking beautiful.

*All recommended fixture plumbing accessories, including but not limited to, grip rails, trim kits, drains: Duostrainer® sink strainers and soap/lotion dispensers; are warranted to the original purchaser to be free of defects in material and workmanship for one year from the date of purchase.

**Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. This will void the warranty.

***Currently used only in Abrazo Vessel

During the warranty period if (in the opinion of Kohler India) the defect is due to defects in the material or workmanship, Kohler India or its Authorized Service Franchisee/Representative will, at its sole option, repair or replace free of cost, any defective component or part of the Sanitaryware and Bathing Product, subject to the terms and conditions described below:

1. Kohler India or its Authorized Service Franchisee solely can service/repair the Product.
2. Kohler India and its Authorized Service Franchisee will make unit repairs or replacements under this warranty within a reasonable period of time, as determined by Kohler India or its Authorized Service Franchisee performing the repair or replacement.
3. This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims and requests.
4. The service/repair of the warranty shall be provided only within the municipal limits of the town or city where the Branch Office of Kohler India or its Authorized Service Franchisee is located.
5. This warranty does not include payment of or responsibility for any excise duty, central taxes, state taxes and octroi or other local taxes assessed to the parts supplied or repaired during the warranty period.
6. If the Product is installed beyond the municipal limits of Kohler India's Branch Office/Authorized Service Franchisee locations, any and all costs and expenses incurred for repair/service of the Franchisee locations, any and all costs and expenses incurred for repair/service of the Products in respect of a) to and fro travel of service personnel and b) transportation of the Product and/or spare parts and/or components from the location of Kohler India's Branch Office or Authorized Service Franchisee to customer's location and back shall be borne wholly and solely by the customer at the prevailing rates, and Kohler India shall not be liable for any damage caused to the Product in transit or delivery for repair.
7. Warranty period will start from the date of invoice and shall automatically terminate upon the expiry of the warranty period even if the Product has not been installed after purchase or has not been in the use for any part or whole of the warranty period for any reason.

8. In the event of any repairs/replacement of any parts of the Product, this warranty shall thereafter continue and remain in force only for the unexpired period of the warranty. Any time consumed for the repair/replacement of parts including transit of the Product or its parts or any period during which the Product has not been used whether under warranty or otherwise shall not be excluded from the warranty period and no extension of the warranty period will be granted.
9. This warranty remains applicable only if the Product has at all times been used strictly in accordance with the terms of this warranty and has not been improperly or negligently handled. This warranty is not valid or effective if the Products are not installed according to the instruction manual. Improper handling of the Products automatically terminates and nullifies this warranty. This warranty does not cover problems arising from insufficient water pressure, beyond the recommended limits, excessive water impurities or improper care and cleaning. Guidelines for proper care and cleaning** are mentioned below. Kohler India is not responsible for labor charges, installation or other incidental or consequential costs. Kohler India is not responsible or liable for any special or consequential damages due to the defective Product, or due to defects of any component or part thereof. In no event shall the liability of Kohler India exceed the purchase price of the Product. Improper care and cleaning will void the warranty.
10. In the event of non-availability of components or parts due to any reason whatsoever, neither Kohler India nor its Authorized Service Franchisee nor the Dealer will be responsible or liable for any delay that may be caused to service/repair of the Product. In the event that the same model or color is not available for replacement, Kohler India or its Authorized Service Franchisee will replace the defective Product with an equivalent model or color.
11. Kohler India may, at its discretion, retain any part or component replaced during the warranty period.
12. For Sanitaryware and Bathing products sold in India, only this warranty document is applicable. Any reference to any other warranty document will not be considered.

This is Kohler India's exclusive warranty. The decision of Kohler India regarding the warranty is final and binding. All disputes are subject to the exclusive jurisdiction of the courts of Gurgaon only.

Care and cleaning guidelines

- Always test your cleaning solution on an inconspicuous area on the product before applying it to the entire surface.
- Do not allow cleaners to sit or soak on the product.
- Use a soft, dampened sponge or cloth to clean. Never use abrasive material like a bristle brush or scouring pad.
- Wipe surfaces clean and rinse completely with water immediately after applying cleaners.
- In the rare occurrence of stubborn stains on Cast Iron surfaces, use abrasives or abrasive cleaners sparingly.
- Clean stainless steel surfaces once a week. Do not use cleaners containing chloride on stainless steel. If used, rinse the surface immediately to prevent corrosion.
- Wherever gold or platinum is used on decorative products, use only warm water to clean and then dry with a soft cloth.
- Kohler Furniture/Cabinets should be installed in properly ventilated bathrooms to avoid damage from moisture
- Spots on Lithocast material can be cleaned either by Scotch brand cleaning pad or refer user's guide for deeper damages.

KOHLER India's Shower Enclosure Warranty Policy.

KOHLER India's shower enclosures are warranted to be free of defects in the material and workmanship for the period of 5 years, commencing from date of sale of Kohler India's Products to the original purchaser (warranty period).

During the warranty period if (in the opinion of Kohler India) the defect is due to defects in the material or workmanship, Kohler India or its Authorized Service Franchisee/Representative will, at its sole option, repair or replace free of cost, any defective component or part of the enclosure, subject to the terms and conditions document available with the product.

Notes

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
